

Using Virtual Reality for Process Improvements

Thursday
October 20th
5:30 PM

In-person
Event

ISA/ACS Columbus October 2022 Event

The International Society of Automation Columbus

Otterbein University
The Point
60 Collegeview Road
Westerville, OH 43081

Event will take place in Room
145.

On **Thursday, October 20th at 5:30 PM**, the ISA Columbus Section and the ACS Columbus Section are hosting an in-person event. Experience first-hand the world of virtual reality and learn about use cases for the engineering industry.

Presented by **Doug Smith, MBA**, is the Director of Learning Success at the HoloPundits' virtual reality-based immersive learning hub, XRGuru.com. Doug has helped hundreds of educational institutions and enterprise organizations incorporate pre-made and custom immersive learning modules into classrooms and training processes. He lives in Columbus, Ohio and consults with innovators around the globe.
